

## Viertelfestival (Quarter-Festival) Lower Austria

First of all consider this:

**Viertelfestival** means “Quarter-Festival” in term of four regional parts (quarters) of Lower Austria:

Mostviertel = Ciderquarter

Weinviertel = Winequarter

Waldviertel = Woodsquarter

Industrieviertel = Industryquarter

The Viertelfestival Lower Austria is a project of the Kulturvernetzung Lower Austria. It is composed of four sub-festivals, which take place in four consecutive years in each quarter - from middle of May to middle of August.

The Viertelfestival Lower Austria is designed by people for people who feel connected to the particular region of Lower Austria (see above) and its culture. The festival has no one fixed venue, the individual festival projects can be implemented anywhere in the particular region. On average up to 70 art projects of which about 20 school projects take place in each region. Whether visual arts, new media, theater, opera or literature, the Viertelfestival is involved in all art categories. It is not about main stream, commercial entertainment or famous people, but about special art productions, which are emerging from the region and connected to it.

This Festival wants to show that art and culture can connect people beyond all borders and languages. That is why we gave during the previous two projects the framework for development and implementation of Austrian-Czech cross-border art projects.

We would appreciate to network and exchange with partners all over Europe.
